## A FIERCE CONTEST

British Correspondent Describes the Battle Between the Torpedo Boats March 9.

### THE JAPANESE THE BETTER SHOTS

Russians Fought With Desperation and the Japanese With Confidence Born of Their Past Victories.

Thirty Russians on Board the Stereguschki Were Terribly Mutilated By a Shell From the Jap's Gun—A Sickening Sight.

London, March 21.—Nothing has reached here to confirm the report that a battle has taken place on the Yalu in which the Russians captured 1,800 prisoners.

A dispatch from St. Petersburg dated Sunday says there has been no change in the situation and that all is quiet on both land and sea between the Russian line from Ping Yang to the Yalu river and the Japanese line to Gensan. There have been slight skirmishes between scouts, but no battle has taken place, as the distance between the opposing armies is great. The bulk of the Russian forces, the dispatch adds, has not yet passed the Yalu river.

A correspondent of the Times at New Chwang cables as follows: According to information received here the reason the Vladivostok forts did not reply to the bombardment by the Japanese was because the batteries were not provided with guns. Since the bombardment, parties have been working night and day to place guns in position. The Russian losses were slight because the batteries were deserted.

A correspondent of the Times with the Japanese forces, by wireless telegraphy via Wei-Hai-Wel, under date of March 20, sends over a column of matter which is mostly a description of the torpedo fight between the Russians and the Japanese on March 9.

He confirms the fierceness of the contest. The vessels were so close that the Russians threw charges of explosives on to the bridge of one of the Japanese torpedo boat destroyers. These, however, failed to detonate. All the vessels engaged were more or less damaged. The Japanese losses were six killed and eight wounded. That the Russians were defeated, in spite of the superior numbers, is due to the better shooting of the Japanese and the fact that the Russian vessels were armed with 3-pound guns while the armament of the Japanese ships was made up of 6-pounders.

In reference to the fight of three hours which occurred later, the correspondent says the Russians fought with desperation and the Japanese with confidence born of their past victories. One Russian commander was killed early in the fight. A lieutenant then took command, only to fall, shot in both legs. The command devolved upon the sub-lieutenant, who also was killed after taking the wheel himself. When the coxswain fell this vessel was captured by the Japanese. The other Russian vessels escaped. On the Japanese side one destroyer was hit on the water line, two of her compartments were flooded and her quickfiring ammunition was wetted. This vessel retired from the action. Her officers escaped narrowly from a 12-pound shot which struck the platform in front of the bridge, killing one man and sweeping the bridge with splinters. The same vessel received a 3-pound shot through the hull, but the damage was repaired within four days.

A Japanese lieutenant who boarded the Stereguschki said he had never seen a more sickening sight. Thirty bodies, terribly mutilated by a shell, were lying on deck. As the Japanese approached, two Russian blue jackets rushed from the conning tower, locked themselves in the cabin aft, and refused to come out. Two stokers jumped overboard, and were picked up. These, with two wounded men, were the only survivors of a crew of 55. When the Stereguschki sank the men who were locked in the cabin sank with her.

The Japanese concentrated their fire first on the Russians' 12-pounder, and put it out of action early in the fight, leaving her with only her 3-pounders against their own 12-pounders and 6-pound guns. The Japanese had three killed and four wounded.

Describing the bombardment of Port Arthur on the same day, the correspondent asserts that more than 110 shells fell in the town. The effect of the great shells from the 12-inch guns must have been appalling.

Pittsburg, Kan., March 21.—An explosion of a gas tank in a restaurant owned by Cropper Bros. in this city Sunday night injured six persons, three of them seriously. The entire building was wrecked.

### ANTI-LYNCHING CRUSADE.

Resolutions Adopted By a Camp of United Confederate Veterans.

Grenada, Miss., March 21.—An anti-lynching crusade has been inaugurated by the W. R. Barksdale Camp, United Confederate Veterans, of this city. The following significant resolutions were unanimously adopted at a largely attended meeting of the camp:

First, that we are unalterably opposed to the lynching of a human being save perhaps for the one unmentionable crime.

Second, that as confederate veterans and law abiding citizens of Mississippi and of the United States we are violently, vehemently and eternally opposed to the practice of burning a human being for any crime whatsoever.

Third, that we appeal in thundering tones to all confederates, their wives and daughters, and to that great and glorious organization, the Daughters of the Confederacy, one and all, to arise in their might and by precept and example, voice and pen, moral force and influence, help put a stop to this diabolical, barbarous, unlawful, inhuman and ungodly crime of burning human beings.

Fourth, that we heartily approve and applaud the action of Gov. Vardaman in his recent successful efforts to save a criminal from a mob bent on burning.

### BURGLAR'S BULLETS.

Shot Two Policemen and Wounded Himself Before Captured.

New York, March 21.—While in pursuit of a burglar Policemen Hugh J. Enright and Jacob Bachman were shot, the former dying after being taken to a hospital, and the latter being mortally wounded. The man who did the shooting and who gave the name of Michael Brush, was captured after he had shot himself in the head. His wound is not serious.

Brush and another man, who escaped, were detected robbing a bakery in Third avenue by a private watchman who raised an alarm. Enright and Bachman pursued Brush down East 55th street. The fugitive fired at Enright, shooting him through the stomach, and a moment later shot Bachman in the stomach and leg. Other policemen took up the chase, and brought Brush to bay after he had taken refuge in a cellar from which he fired a number of shots from two revolvers at his pursuers without effect, and then shot himself in the head. Brush was later identified as Jacob Hunter, who in 1901 was sentenced to two years in the penitentiary at Trenton, N. J., for burglary.

### TO SIGN THE AGREEMENT.

Coal Operators and Miners Assemble at Indianapolis.

Indianapolis, Ind., March 21.—The coal operators and miners, from the central competitive district, who were unsuccessful in their efforts in joint convention to consummate an agreement as to a new wage scale, to become operative April 1, arrived in this city Sunday night to sign the two years' contract providing for a wage scale with a reduction of 5.55 per cent. from the existing schedule, which was accepted by the United Mine Workers by a referendum vote taken last Tuesday. Both miners and operators freely expressed their satisfaction at the successful termination of the wage contest. The articles will be signed Monday.

### CAR BARNS BURNED.

Five of the Employees Were Painfully Injured—Loss \$150,000.

Chicago, March 21.—Fire Sunday night destroyed the Union Traction Co.'s car barns at Division street and Western avenue, causing a loss of \$150,000. Five of the company's employees, who were fighting the flames, before the firemen arrived, were imprisoned in the burning structure by a falling roof and all were painfully burned before they could be rescued. More than 50 street cars were burned. The building was 250 feet long and 200 feet wide. This is the second of the Union Traction Co.'s barns to burn within a week, and both fires are believed to have been of incendiary origin.

### ELL BURNS ACQUITTED.

Monominee, Wis., March 21.—Ell Burns, Indiana civil war veteran, held on the charge of murder of Al Rose Turner, has been acquitted. Burns was threatened with death by whistling whereupon he is said to have shot his assailant.

### Two Negroes Lynched.

Cleveland, Miss., March 21.—A mob of masked men stormed the jail here, secured possession of Fayette Sawyer and Burke Harris, two Negroes, charged with the murder of Sid Killum, a Negro porter, on a passenger train, and hanged him.

## DISASTERS AT SEA

German and English Barks Collide Off Dublin Bay, the Latter Sinking.

### THE CREW OF 22 WERE DROWNED

American Steamship New York From New York For Plymouth Met With Two Mishaps.

Grounded Off Cape La Hague In the Morning and Later Came Into Collision With the British Troop Ship Assaye.

Dublin, March 21.—The German bark Mona collided with the English bark Lady Cairns off Dublin bay Sunday morning. The Lady Cairns sank in a few minutes. Her crew of 22 were drowned. The Mona, which was much damaged, was assisted into Dublin harbor.

The Lady Cairns was a three-masted iron ship of 1,186 tons. She was commanded by Capt. T. Evans and was bound from Liverpool for Timaru, New Zealand. She was built in Belfast in 1869 and was owned by L. Tulloch, of Swansea. The Mona was commanded by Capt. Schwarting and was last reported at Adressan.

Southampton, March 21.—The American line steamship New York, Capt. Young, from New York, March 12, for Plymouth, Cherbourg and Southampton, met with two mishaps Sunday, grounding off Cape La Hague, France, in the early morning, and later coming into collision in the English channel with the Peninsular and Oriental steamship Assaye, under contract to the British government and used as a troop ship, bound for Bombay with 500 troops on board.

The New York grounded while approaching Cherbourg at 2:30 o'clock Sunday morning during a fog. The sea was smooth, however, and the tide was on the flood, and within an hour and a half the vessel was floated without assistance. Her bottom was damaged and there was water in the holds, but she was able to proceed.

During the voyage up the channel a dense fog descended. When off Hurst Castle, England, the Assaye suddenly appeared and it was found impossible to avoid a collision. The New York's bow crashed into the Assaye's starboard bow, tearing a great gap in that vessel. The New York's bowsprit and figure head were carried away, and the latter was smashed into fragments.

There was great excitement on both vessels. The boats of the Assaye were lowered and the troops were mustered, but the bulkhead of the troopship saved her. Both vessels were able to enter Southampton; and the New York was docked at 6:30 for temporary repairs. Nobody was injured. It will be impossible to estimate the damage to the New York until she has been put into dry dock.

It is believed that both vessels have been somewhat seriously injured. Another troopship will replace the Assaye.

### IN NEW ENGLAND.

An Earthquake Caused a Tremor Throughout the Eastern Section.

Boston, March 21.—An earthquake Monday morning caused a tremor throughout the entire eastern section of New England. Beginning at St. John, N. B., the seismic vibrations traversed the state of Maine, causing some slight damage to buildings in Augusta, Bangor and Portland. The shock was felt plainly as far south as Staunton, in this state. Reports from Manchester, N. H., and Springfield, Mass., state that the vibrations were felt distinctly in those two cities.

Observers at the Harvard university astronomical observatory in Cambridge felt the shock.

At Augusta, Me., lamp chimneys were broken and crockery was smashed. The vibrations lasted several seconds and in nearly every instance occurred about four minutes after 1 o'clock.

### HE FILLED HIS PULPIT.

Police Officers and Detectives Stood Guard at the Entrance.

Louisville, Ky., March 21.—While police and detectives stood guard at the entrance, Rev. Charles Leonard, pastor of East Meade Baptist church, filled his pulpit Sunday after the doors were forced open from the inside by a man who had opened a side window and clambered through the opening.

There was no disturbance, although the anti-Leonard faction stood about the church door, none of them entering the church to listen to the services. The police were on guard in compliance with a request for protection made by members of the anti-Leonard faction, who intended to have the pulpit filled by Rev. M. L. Blakenship, but Rev. Mr. Blankenship failed to appear at the service hour. Rev. Mr. Leonard was locked out of the church last Sunday by the faction opposed to him and no services were held.

Henry Kelly Shot and Killed Jarvey Jones, It Is Alleged.

Lexington, Ky., March 21.—In a saloon fight on Shibley's creek Henry Kelly, brother of the late Jim Kelly, shot and killed Jarvey Jones, brother of Claude E. Jones, of feud fame. The men quarreled over a card game.

Jones fired several bullets among bystanders, none of them striking Kelly. The latter immediately began shooting. His first shot killed Jones. Kelly then fired volley after volley into his lifeless form.

Jones was known as one of the most desperate men in the mountains, having killed a dozen men. Immediately after the killing Kelly gave himself up to the officers. None of the bystanders were seriously injured, although Henry Combs was shot through the left arm.

### FRIENDS OF BERE A COLLEGE.

They propose to test the enforcement of the provisions of the bill and will test the constitutionality of the act through the courts. M. E. Marsh and G. A. Hubbel, both representing Berea college, have consulted local counsel with a view to instituting legal proceedings. Both gentlemen refused to talk until something definite has been decided upon.

## SENATE FORECAST

Present Week Will Be Devoted Almost Exclusively to the Appropriation Bills.

### NEW DEPARTMENT BUILDING BILL

Sundry Civil Bill Will Probably Be Ready the Latter Part of the Week in the House.

Post Office Report Will Be Cared For Hereafter By the McCall Committee Which Will Set in Open Session.

Washington, March 21.—The present week in the senate will be devoted almost entirely to appropriation bills, beginning on Tuesday with that for the District of Columbia and following with the Indian and pension bills. Neither the District nor the Indian bill has been reported from committee, but both are promised early in the week and they will take precedence over the pension bill, notwithstanding the latter is now on the calendar. The pension bill is held for possible additions made necessary by additional legislation, but its consideration will not be long delayed. It is not expected there will be any effort to increase the amount carried by the bill on account of the recent executive pension order. Whatever sum may be required to carry the order into effect will be incorporated in a general deficiency bill. Unobjectionable bills on the calendar will be taken up Monday and further consideration may be given to Senator Fairbank's bill providing for a new department building in this city.

The post office, the military academy and the sundry civil appropriation bills constitute the work mapped out for the house this week. On Monday the house adjourned early owing to the death of Representative Thompson, of Alabama. The post office bill is pending and several knotty questions, such as rural free delivery salaries, railway mail subsidies and railway mail service, are likely to prolong its consideration for several days. The military academy bill is not expected to consume much time. The sundry civil bill probably will be ready the latter part of the week, and its consideration will extend into the following week. Present indications are that no other matters of importance are likely to be injected into the proceedings of the week. The post office report will be cared for hereafter by the McCall committee which is to sit in open session during the week.

The Ewing Inquirer has entered upon its eighth year. Judge Wyatt gives his readers an excellent paper, and is meeting with success.

The new State Commissioner of Agriculture in his first monthly crop report just out says: "Winter oats are nearly a failure all over the State." The editor of the BULLETIN must acknowledge this thing of "winter oats" is a new one. If Mr. Vreeland will make a little investigation he will find that the farmers have hardly begun sowing oats.

### THE TRUST EVIL.

Congressman Hearst of New York has offered a resolution providing for an investigation of the trust question by a committee of five members of the House. The resolution contains ten clauses, reciting the evil effects of combines upon the country, among them being the following:

"Numerous illegal combinations, known as trusts, have been formed to absorb or eliminate competition and establish virtual monopolies, with a view to controlling production and raising the price of their products."

"Such extortionate trusts as the beef trust and coal trusts and the ice trust have arbitrarily increased the cost of the necessities of life to the public."

"Such speculative trusts as the ship yard trust and the steel trust have inflated their stock to many times its actual value and sold to the public, transferring the people's money from banks and legitimate investments into the pockets of the trust promoters and speculators."

"Industrial unrest has been fomented by increased cost of living and by the consequent necessity of labor to make its wages keep pace with the increased cost of living."

"Such trusts as the steel trust, in spite of the increased cost of living, have ruthlessly cut down the wages of hundreds of thousands of employees in order to pay dividends on watered stock, and other trusts have wholly collapsed, throwing hundreds of thousands of workmen out of employment."

"The purchasing power of the community has been diminished by the increasing demands of the trusts, by unsound and reprehensible methods which have misled the people, swindled them and robbed them of their savings."

"All classes of the community are being made to feel the evil influence of the unrestrained greed and lawless practice of the trusts."

This is but a mild recital of what the trusts have done and are doing. Congress knows this without any investigation, and certainly laws should be adopted to remedy the evil and give the people relief.

### THE TOBACCO MARKET.

Review of Trade on the Cincinnati Breaks For Week Ending Last Friday.

The burley leaf sales for the week closed with light offerings, the total being 181 hogheads, about equally divided between old and new crop. Thursday's good price standard were well maintained throughout the entire list. Short red tips of the new, between 7c and 9½c, and medium red and bright leaf, between 8c and 11c, were the best features. Fine leaf and selections of the new were represented by a few hogheads, which sold from 10c to 13½c, and an equal amount of choice and fancy leaf of old brought from 12c to 15½c.

Transactions for the week and year to date in the Cincinnati market are as follows: Offerings of new for the week 1,020, hogheads, for the year 6,300. Offerings of old for the week 970 hogheads, for the year 6,316. Total for the week 1,990 hogheads, for the year 12,716. Rejections for the week 253 hogheads, or 13 per cent; for the year 2,078 hogheads, or 16 per cent. Actual sales for the week 1,737 hogheads, for the year 10,638. Receipts for the week 1,329 hogheads, for the year 7,565.

The new crop tobaccos offered averaged \$9.02 per 100 pounds and the old \$8.58.

### APPELLATE COURT RULINGS.

Decisions in Cases Taken Up From Mason Circuit Court.

In affirming the case of Carr versus Loudon & Co., taken up from this county, the Court of Appeals says:

Where a commission merchant purchased wheat to be paid for upon its delivery at Chicago, a letter from the shipper to the commission merchant at the time of the shipment stating "I am sure will stand the test, as it goes 61 and 62 here," obviously meant that the wheat was to be inspected and graded, and in an action against the seller by the commission merchant for the amount of value of shortage, a judgment in favor of the merchant for the amount of the shortage will not be disturbed.

W. D. Cochran for appellant; Thomas M. Wood for appellee.

In affirming the suit of Mann vs. the Commonwealth, taken up from the Mason Circuit Court, the Court of Appeals, by Judge Paynter, says:

Upon the trial of appellant evidence to the effect that he said to the arresting officer at the time of the arrest: "You are a good friend of mine; why didn't you give me a tip and let me get away?" and other testimony tending to show that he was a friend of the officer, and a verdict of conviction will not be disturbed.

The company engaged this season by Meers, Goodhue & Kellogg is by far the best that has ever presented this merry play-let.

The House Committee on War Claims has reported favorably on the bill which involves the payment of the money due the Fourth Kentucky infantry, Spanish-American war. If the bill passes, and it is believed it will, the Kentucky soldiers will get nearly \$60,000 which has been due them. Captain C. O. Calhoun has been devoting his time to the measure during this session of Congress.

#### BACK TAX SUITS.

Auditor's Agent of Paducah Institutes Proceedings Against State Banks of This County For Taxes on Deposits.

Frank A. Lucas of Paducah who claims to be an Auditor's Agent for the State-at-large has filed suit in the Mason County Court against the Bank of Maysville, Mitchell, Finch & Co.'s Bank, the Bank of Dover and the Bank of Mayslick to recover back taxes on the amount of their deposits.

The suits against the first two banks are for taxes for years 1900 to 1904 inclusive and against the other two for years 1903-1904. The following are the amounts Mr. Lucas seeks to recover on, together with 20 per cent. penalty.

BANK OF MAYSVILLE.	
1900.....	\$395,650 60
1901.....	485,125 58
1902.....	481,048 88
1903.....	463,624 06
1904.....	511,860 82
MITCHELL, FINCH & CO.	
1900.....	\$126,152 03
1901.....	112,670 97
1902.....	136,965 75
1903.....	129,403 83
1904.....	131,310 03
STATE BANK OF DOVER.	
1903.....	\$ 17,687 33
1904.....	33,216 08
BANK OF MAYSICK.	
1903.....	\$ 32,556 29
1904.....	49,895 35

The suits are similar to the suits filed against banks at several other points the past week.

State Auditor Hager has, however, ordered the suits all discontinued as he gave no instructions for them to be instituted and he also says it is a question whether Mr. Lucas is really an agent of the Auditor. Lucas claims appointment under former administration.

#### BRACKEN'S OIL FIELDS.

Judge Harbeson Rendered an Important Decision Saturday Upholding the Claims of H. D. Frisbie and Others.

Judge Harbeson in the Bracken Circuit Court Saturday rendered an important decision in the suit brought by H. D. Frisbie and others to compel specific performance of the option for oil, gas etc., privileges to Frisbie & Co., by Leander Berry. The court declares the option valid and enforces specific compliance therewith, and also awarded damages. The plaintiffs won on every point.

The action was for a specific performance of contract. The court holds that Frisbie and his associates had complied with the conditions set forth in the contract. That they went into Bracken County after making an investigation as to the probabilities of oil, gas or minerals being found, took options on certain lands which gave them two years in which to prospect for said minerals, and if oil, gas or ores could be found in their judgment that would pay to work, lessors would on demand make the said Frisbie and his associates or assignees a deed to said oil, gas and mineral privileges.

It was brought out that after Mr. Frisbie had gone over and inspected several thousand acres of land lying on the North Fork of the Licking river and tributaries and taking option on same, he located and sunk several test wells in the territory, with gratifying results. A fine quality of green oil was struck at the unprecedented level of only sixty-three feet, well overflowed; another well at 400 feet level has 350 feet of oil in it; other shallow wells with a fine showing of oil in them and a gas well that has been burning six to eight feet high night and day for three months—in no instance failing to find oil or gas in every well located by him—proving his ability as an oil expert and the reliability of his methods in locating oil.

The territory is purely wild-cat, no oil having been found in that section of the State before.

John Harbeson, author: "My bicycle has worked so many wonders for my temper, digestion, general health and enjoyment, that I would not exchange it for any other means of recreation, an automobile not excepted. Now

that faddists and scorers have abandoned their wheels I confidently expect to see all sensible people take to bicycling as a permanent habit."—New York, July 23, 1903.

Simon B. Anthony:  
"Women generally live too much indoors, and the bicycle helps them to outdoor exercise and amusement, and is therefore a Godsend to them. A girl never looks so independent, so much as if she felt as good as a boy, as when riding the wheel. But after all, women must have a right to a voice in the government under which they live, they must be able to say who shall make the laws and who enforce them before they can be free and equal with men."—Rochester, N. Y., June 19, 1903.

### FIRE.

That ancient idea that pianos are a luxury. Let there be something doing with your brain tissues. Look around and find, if you can, a piano player out of a position. Investigate and learn that people who can play a piano have a steady income and light work.

### \$10,000 LOSS.

The ancient idea was to spend one's entire life digging—nose kept to the grindstone until the appreciation of pleasure or comfort was entirely ground out of one—all to accumulate a \$10,000 estate to leave to one's heirs, and along comes a fire or some other adversity and your heirs are left destitute.

### NO INSURANCE.

Absolutely no insurance that after your strenuous life your children would not suffer for the bare necessities. All they had to depend upon was the property left them which was subject to adversity in a thousand different natures.

### BAD BUSINESS.

This is certainly unwise. Leave your children that which can never be taken from them—a musical education. A musical education insures a steady income, and, with little effort, and the pleasure in gaining this education makes this old world a lovely one.

### SUSPICIOUS CHARACTERS.

As the greatest aid to securing a good musical education, suspicion rests upon the instruments manufactured by The Smith & Nixon Piano Co. Every one says they are the best. Where there is so much smoke there must be fire. We manufacture high grade pianos and sell them to you at wholesale price.

See our samples at John I. Winter & Co.'s store, Maysville, Ky.
